### **PRESIDENT'S MESSAGE**

Greetings National Capital Chapter members,

Happy New Year! I hope that everyone made it through our recent snow storm without any major issues. 'Tis the season, and now might be a great time to capture some lessons learned from your employees and clients during this storm to prepare for next one. Try as we might, we cannot prevent adverse weather conditions, but we can reduce risk to life, property, and the environment by taking the right precautions.

We have a terrific opportunity coming up at the end of the month to discuss the ANSI A92 Mobile Elevating Work Platforms Standard Update. ANSI Committee Members Chris Hughes and Jeff Stachowiak will be providing an

update on changes to the new standard, and this is your chance to find out how the changes will affect you. Be sure to register on our website at the link below.

February will also be a great month, as we will be having a Job Hazard Analysis Webinar on February 7, and a discussion on Safety Liability at Multi-Employer Worksites on February 21. This will be a joint meeting with the Metropolitan Washington Federal Safety and Health Committee, and is sure to be great content delivered by Courtney Malveaux of Jackson Lewis.

We have a ton of career opportunities now posted on our website, and we would be happy to post yours as well. Please send us an email if we can help you find your next candidate.

Finally, exhibitor booths are almost sold out for our Mid-Atlantic Construction Safety Conference. If you were hoping to attend as an exhibitor please reach out to the leadership team as soon as possible so we can help you get a booth. Attendee registration is open for our event on April 23, 2019.

As always, have a safe day, and we will see you at the next meeting on January 24!
